

STEP IT UP PIERCE COUNTY

Equity:
We focus on equity and building trusting relationships with under-served populations.

Collaboration:
Bringing together local agencies, organizations, and advocates to create a more walkable Pierce County.

STEP IT UP PARTNERS

PROJECT GOALS TO INCREASE WALKING AND WALKABILITY

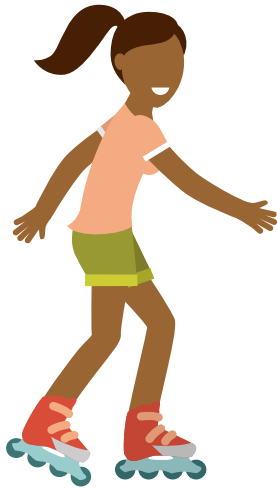

Goal One: Partnership Development

Develop equal partnerships between government agencies and the community. Include diverse membership and resources that support safe and accessible active transportation for low income neighborhoods and communities of color.

Goal Two: Bus Rapid Transit Line

Support Pierce Transit in implementing a Bus Rapid Transit (BRT) through an equitable engagement process.

Goal Three: Safe Routes to Places

Broaden the Safe Routes to School concept to include Safe Routes to Everyday Destinations, including transit, parks, grocery stores, and other community locations of interest.

Goal Four: Complete Streets Implementation

Promote Complete Streets implementation, especially in regional and local centers.

Goal Five: Development of Trails, Sidewalks, and Active Transportation Facilities

Support and inform the development of local and regional trails, sidewalks, and other active transportation facilities.

Goal Six: Leveraging Funds

Coordinate collaborative grant writing to fund Team Action Plan goals and objectives and augment participating organization's walkability efforts.

GET INVOLVED!

We meet monthly to work on the goals collaboratively. Contact Meagan Kula at meagank@downtownontheho.org to learn more and join the effort.
